

The **SIDE** **LOAD**

Constant Force Balance System®

John Evans' Sons has made minor modifications to the SideLoad Constant Force Balance System to enhance product performance.

New Features

Longer spring tab

Lance in tab

Narrowed end detail (.360")

Extended nose carrier

Improved two stage lock

Benefits

Provides for easier assembly into jamb (*fig. 1*)

Allowing spring to "lock" into jamb (*fig. 2 & 4*)

Allows for smaller slot (.375") to prevent weakening of profiles without an internal support rib (*fig. 3*)

Makes it easier to center sash between carriers (*fig. 5*)

Further assurance that lock will always retract easily & reliably (*fig. 5*)
