STATIC DISCHARGE REELS

DMI-50CC

Quality, reliability and a reasonable price.

Our reels feature totally enclosed, gasketed spring rewind mechanisms for the ultimate in protection from the elements. When paying out cable, a sturdy latching system holds the cable at the desired length. A gentle tug on the cable releases the latch, and the cable retracts back onto the reel.

Reel construction is of galvanized/zinc plated steel with a durable baked enamel finish. All bearing surfaces are permanently lubricated. Stainless steel springs are available when specified. Various combinations of cable, end fittings and color are available to custom tailor a reel to your specific requirements!

STANDARD MODELS

DMI-50CC   50' Cable Extension   3/32" dia. 7x7 Stainless cable, yellow Hytrel jacket/100 amp copper clamp

DMI-75CC   75' Cable Extension   3/32" dia. 7x7 Stainless cable, yellow Hytrel jacket/100 amp copper clamp

DMI-100CC 100' Cable Extension   3/32" dia. 7x19 Stainless cable, non-jacketed/100 amp copper clamp
Cable Options
